

*Atwater on Gore Creek
Vail, Colorado*

Joshua Miller incorporates creativity and a drive for excellence into every project. While obtaining his degree, he learned from leaders in the lighting industry about daylighting, inter-discipline coordination and advanced lighting design. Josh has a clear understanding of how light works within a space and how a lighting system reveals the beauty of architecture.

Josh continues to excel in lighting rendering software to further understand how light works within a space and how to incorporate new and innovative ideas.

During Josh's time at the University of Colorado he studied multiple building systems including architectural, mechanical, & civil engineering and their integration into architectural design. His specialization was in the field of lighting design.

EDUCATION:

University of Colorado, Boulder
Bachelor of Science, Architectural Engineering

PROFESSIONAL AFFILIATIONS:

Designer's Lighting Forum, Board Member
Illuminating Engineering Society of North America
LEED™ Accredited Professional
U.S.G.B.C. Member

Joshua Miller, LEED™AP Project Designer
